The Australian Power Institute

POWERful WOMEN program launch

19 January 2022

As we meet today,
connecting a diverse community of people from across Australia,
we acknowledge the traditional custodians of these lands,
and their continuing connection to land, waters and community.

We pay our respects to the people,
the cultures and their elders
past, present and emerging.

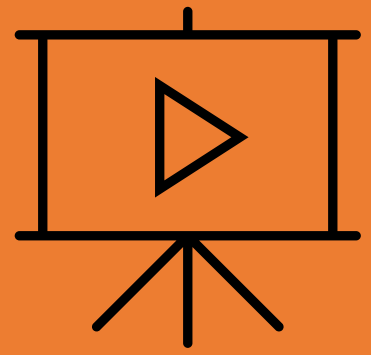
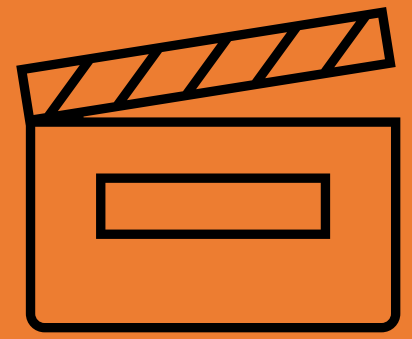
API The Australian Power Institute

Please note this webinar is being recorded.
The recording will be emailed to PWLP participants who were unable to attend.





Agenda

- ✓Who are we?
- ✓Who/what is the API and what does it do?
- ✓What's in the POWERful Women Program?
- ✓What's important to know
- ✓What you need to do now
- ✓Students in Power Summit
- ✓A little networking if time permits

Who we are

David Pointing – CEO
M: 0403 448 488
E: David.Pointing@API.edu.au

Kirsten Pain
Project Coordinator – POWERful WOMEN
M: 0422 419 343
E: Kirsten.Pain@api.edu.au

Stephanie Somerville
Engagement Coordinator

Michelle Murray
Program and Operations Manager

API Board and CEO

The API was established in 2004 by leading organisations in the Australian power sector to address strategic workforce challenges for the sector, with a focus on practical actions and enabling collaborations and contributions from our organisation members. We continue our mission in 2022 as an agile and lean, for-purpose registered Australian not for profit organisation, with an annual turnover of ~$1M. We are governed by our members through the API Board.

The Australian Power Institute

Board Chairperson
Peter Langdon
Endeavour Energy

Deputy Chair
Heidi Sick
Aurecon

CEO
Dr David Pointing

Jason Hall, Energy Queensland

Gair Landsborough, Wester Power

Patrick Matweew, Redback Technologies

Violette Mouchaileh, AEMO

Rakesh Solanki, Powerlink Queensland

Wayne Tucker, TasNetworks (Past Chair)

Lance Wee, TransGrid

Ed Wilson, Wilson Transformer Company

Jess Hui, Ausgrid

About the API - main activities

- **Build STEM skills** and **promote careers in the power sector** to primary + high school students + teachers
- **Inspire + support undergraduate students** to study power engineering subjects (focus on attracting more diversity in students)
- **Maintain deep relationships with 90+ undergraduate bursary students** each year (inc indigenous interns) and connecting them to our API member organisations
- Support and lead gender, indigenous and other **diversity + inclusion initiatives** across the sector
- Lead **collaborations + connections between API member organisations** on common interests (eg bursary, innovation, diversity, indigenous)
- **'Future Leader' development programs and mentoring** (eg webinars, TJ Effeney Scholarship)
- Organise the **API Summer School**, conferences and other CPD
- **Connect power engineering academics to industry**-related knowledge and challenges + teaching resources
- Be a **catalyst for innovation projects + drive knowledge sharing** and capacity building outcomes from projects
- **Coordinate sector-wide reviews and studies** (workforce planning, university capability etc)

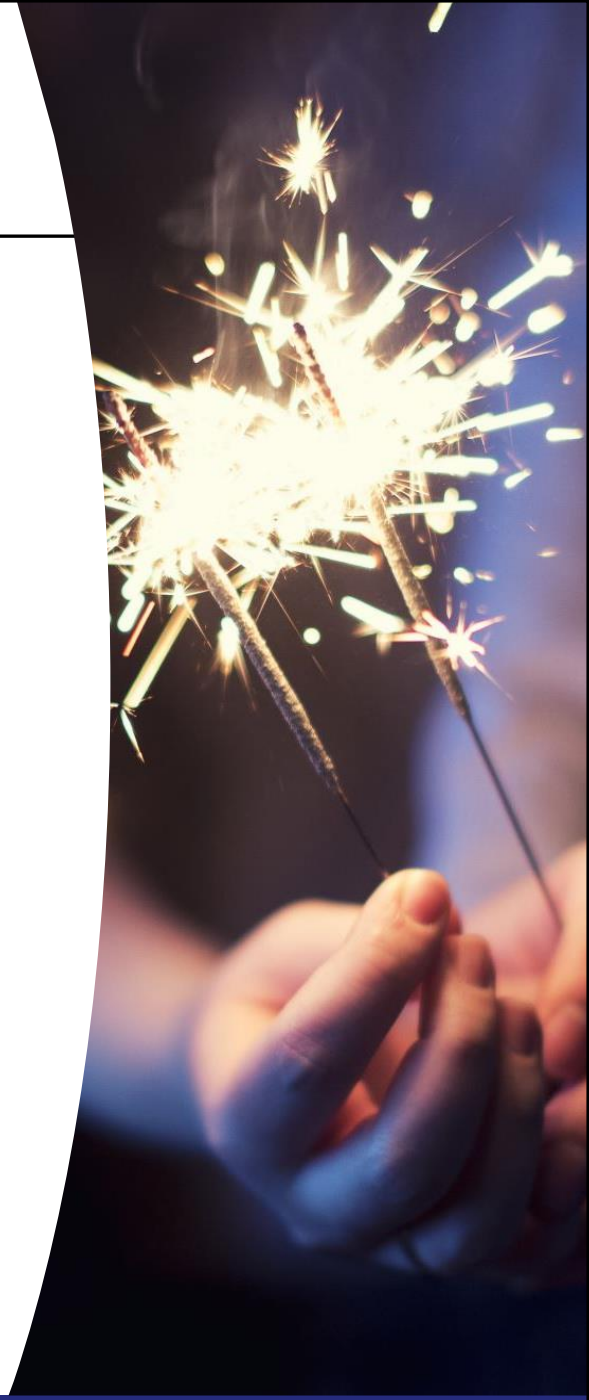
PWLP's goals

- ✓ More women working in technical-oriented roles in the power sector
- ✓ More women being leaders in the power sector (at all levels and all forms of leadership)



- ✓ 20+ Technically oriented female professionals
- ✓ Power (electricity) sector career focus

Mid-career professionals who are emerging and future leaders in the power sector

- ✓ 29 Technically oriented female undergrads
- ✓ 34 Technically oriented female graduates
- ✓ Focused on the Power (electricity) sector

Keen to develop a career in the Australian power sector with aspirations to be a leader

✓82 Women on the POWERful WOMEN program in 2022

The API has secured ~$900K in grant support over 3 years from the Australian Government's Women in Leadership Development program for 65 part and full scholarships each year and program support.

What's in the Program

Core pillars:

1. networks + community
2. career pathways
3. technical knowledge
4. leadership skills
5. inspiring more women into Power

Types of activities:

1. Online activities and networking
2. Online self-study courses
3. Online collaboration tools (Miro Boards)
4. 'homework' you'll complete + share (MS Teams)
5. Online Surveys for data
6. Summer School live 10-day event
7. Early Career live 4-day event
8. Live forums
9. Online public forums
10. Creation of tools and resources

What's in the Program – networks + community

The Australian Power Institute

1. **PWLP Community** – all 80+ PWLP participants will create and share their profiles so you can better connect and build your professional network of supporters, mentors and peers (and understand the career pathways in the power sector) (*MS Teams*).

   You'll also connect with the other people in the API community (Summer School speakers and participants, API Board members, API Bursary students and others)

2. **Monday Mingle** – Last Monday of the month at 1pm (Sydney time) a monthly 45-minute online networking session to strengthen your contacts within the program. We will invite members of the Professional stream to give a 5-minute profile of how they got to where they are; an Early Careers stream will take notes and add dot points to the Career Tree we will develop. There will also be short sessions throughout where we discuss other parts of the program (*Zoom meeting)*

3. **API Industry Dinner and workshops at API Summer School**– participate in Summer School industry dinner in Adelaide on 5/5/22 with ~100 industry professionals and current and future leaders

4. **Ongoing online Mentoring** – you'll match up with several people throughout the year (other PWLP participants and additional leaders from the API member community) (*MentorLoop platform*)

5. **Establishment of Alumni Group** – stay connected after the program finishes ad contribute to future years of the program as a mentor, speaker, school outreach ambassador

What's in the Program – career pathways

The Australian Power Institute

1. **Create a Career Development Plan (Early Career focus, open to all)** – you will develop your own plans to give you direction and ideas on how to get to where you want to go; work with your mentors to progress for evaluation in November 2022

2. **Shared careers stories** – learn from the experiences of others in the program and featured female leaders through the live events and online sessions (including Monday Mingles each month)

3. **Collaborative online *Career Tree* Map + inspiring *Powerful Women profiles*** – together we'll create a map of career pathways in the power sector and develop 15x profiles to showcase the opportunities (*Miro*)

4. **Collaborative mapping of *Skills and Professional Development options*** – together we'll capture details of the skills that future power sector leaders will need and the many options to develop them (*Miro*)

***Optional* API's Sparking Connections and Students in Power Summit events** – join these sessions that provide more information on the API's member organisations and career pathways

Also:

1. Live **Future Workforce Forum** @ API Summer School
2. Online **Women in Power forum** (public) in International Women in Engineering Day (INWED)

What's in the Program – technical knowledge

1. **Executive Insight Webinars** - presentations by industry Senior Executives – some live, some pre-recorded, that identify the key challenges and opportunities in the power sector, and the *executive mindset* needed to solve. Summer School attendees will work in small groups to develop responses to Challenge Questions from the execs and share after the live Summer School to all Summer School and PWLP participants.

2. **Summer School for Professional participants** – participation in the Summer School between 26/4/22 – 6/5/22 & contributing to the Future Workforce Forum. *All* participants will stay onsite.

3. **Early Career participants Early Career Workshop** – live in Adelaide on 4/5/22 – 7/5/22 and linked to the end of the 10-day residential Summer School (theme of Thriving in Uncertainty);
   Exclusive workshops for PWLP and Early Career participants over the 4 days
   - Watch and learn from the Syndicate project presentations by the 50+ Summer School participants
   - participate in the Future Workforce Forum and Workshops (100+ participants)
   - Gala dinner
   - Keynote speaker on leadership
   - online access to parts of Summer School online (Tuesday afternoon)

4. **Online self-study modules on leadership and power sector** – you'll have access to a curated set of resources from our partners to support your development of core leadership skills and technical knowledge (*Thinkific*)

What's in the Program – leadership skills

1. **Online self-study modules on leadership and power sector** – you'll have access to a curated set of resources from our partners to support your development of core leadership skills and technical knowledge

2. **Early Career online workshops (professionals can join too)** – series of workshops presented by Josh Farr, Campus Consultancy on "Leadership of Self" and "Leadership of Others"

3. **Co-design + leadership of forums –** you'll be invaluable contributors to forums and activities in the program – we'll develop our plans using online digital whiteboards (Miro) and you'll be involved in the delivery.
   - Monthly **Monday Mingle** sessions
   - Live **Future Workforce Forum** @ API Summer School
   - Online **Women in Power forum** (public) in International Women in Engineering Day (INWED)

Also:

- Executive Insights – reflections from senior executives on how they approach opportunities and challenges
- Mentoring

What's in the Program – inspiring more women into Power

The Australian Power Institute

1. **Active involvement in public Women in Power Forum** – part of Women in Engineering week 29/6/22

2. **Assist in creating tools to attract more female high school students to Careers in Power** – help develop resources to engage female school students about careers in power (and use of STEM knowledge) as part of the API's engagement campaigns around August each year (when key decisions are being made about future studies and careers)

3. **Be an API Powerful Women in Schools Ambassador** – use the API's resources (including new Powerful Women resources) to engage a school in your personal network about STEM studies and careers in power
   - A Day in the Life 6-module kit for primary schools
   - API Solar Car Challenge kits for 14x high schools
   - General engagement of schools, teachers, students and careers advisors about careers in power

4. **Be a mentor to other participants in the PWLP**

Month	date	day	notes	Mentoring	online	Offline activities	Online collaboration	Inspiring Futures Schools Program
January	19-Jan	Wednesday	PW Resources launch	Set up profile on MentorLoop		Pre-program survey, Wufoo form to offer Participant About You shared document Mentorloop profile		
February	3-Feb	Wednesday	PW follow-up + networking				Miro Boards: Future Forum plan (@summer school) Early Career Retreat ideas (based on survey) Skills needed and CPD options Engineering Day forum ideas (based on survey ideas) Powerful Careers Map (based on About You information) Inspiring School students brainstorming	
	16-Feb	Wednesday	Early Career activities and Exec Insights 1					
	28-Feb	Monday 1-2pm (Syd time)	Monday Mingle (+ Mentor Loop intro)	Mentoring round 1 (PWLP participants)		careeer plan toolkit

Nov	28-Nov	1-2pm (Syd time)	Monday Mingle - Where are they now online session					

Professionals PW program

19-Jan	PW Resources launch; who API is, what the program includes
3-Feb	PW follow-up + networking
16-Feb	Summer School welcome and Exec Insights 1
28-Feb	Monday Mingle (+ Mentor Loop intro) 1-2pm (Sydney time)
2-Mar	Syndicate project info + Exec Insights 2
15-Mar	FYI only - ENA conference on 16-18 March
28-Mar	Monday Mingle (+ Skills and CPD Miro board)
30-Mar	Syndicate Projects sessions with project leads
4-6 April	FYI Only - CIGRE TECHCON AUS-NZ 2022
13-Apr	Exec Insights - 3 + 4 South Australia
26 April - 6 May	Summer School +
2-May	Summer School Week 2
5-May	Forum + Summer School presentations + Dinner
6-May	Summer School ends
	CIGRE CIDER conference on 10-11 May
25-May	Exec Insights group discussions + writing
1-Jun	*optional* API Industry Insight Webinar 3 (focus on women)
30-May	Monday Mingle - Women in Power Forum Event discussion

15-Jun	Exec Insights conclusions + Summer School END, 10 groups @ 3mins = 30mins
27-Jun	Monday Mingle - 1-2pm (Sydney time)
29-Jun	Women in Power Engineering Forum
July +	Continuing online mentoring
25-Jul	Monday Mingle - 1-2pm (Sydney time)
29-Aug	Monday Mingle - 1-2pm (Sydney time)
26-Sep	Monday Mingle - 1-2pm (Sydney time)
31-Oct	Monday Mingle - 1-2pm (Sydney time)
28-Nov	Monday Mingle - Where are they now online session

Professional Program participants will also separately join the Summer School Teams group and program. Currently 31+3 new participants, adding 20 new PWLP participants for 2022.

SUMMER SCHOOL+ 14 - 25 FEB 2022

API The Australian Power Institute

SUMMER SCHOOL+ 14 - 25 FEB 2022

The Australian Power Institute

Developing the next generation of power sector leaders with an immersive 2-week residential program, developed and delivered for industry by industry, for 15+ years.

Summer School for *Professionals* (26 Apr – 6 May)

OR Retreat for *Early Career* (4-7 May 2022)

- Expecting ~55 delegates (50% female)
- 60+ expert speakers
- Projects, expert speakers, site tours, extensive networking and relationship development
- Overlap with API's new Powerful Women Early Career leadership retreat (50 grads and undergrads)
- Future Workforce Forum (100+ participants)

Professional Stream

API Summer School 2022 Program (DRAFT)

Updated: 20 DEC 2021

WEEK ONE		Tues 26 APR	Weds 27 APR	Thur 28 APR	Fri 29 APR	Sat 30 APR	Sun 1 MAY
Column2	Travel	An Agile, Innovative Generation Mix	An Agile, Innovative Energy Delivery Sector	Field/Site Tours	Electricity Markets - Journey to the Future	Field/Site Visits	Rest Day
7:00am - 8:30am		*Breakfast*	*Breakfast*	*Breakfast*	*Breakfast*	*Breakfast*	*Breakfast*

AEMO

EXECUTIVE INSIGHTS SERIES

Challenge Question #7

The energy transition is happening faster than anyone expected, and there are no signs it is slowing down.

What are the things we as an industry need to do to prepare the system and market for a 100% instantaneous renewable energy grid?

You can tackle this question from an technical engineering, market and regulatory framework, industry culture and capability, or data and technology perspective. Think big and bold!

CEO's + executives from the API's Governor members to contribute to new online *Executive Insights* sessions

- ✓Key strategic challenges and opportunities facing our sector and organisations
- ✓Executive mindset and solutions
- ✓online throughout 2022

What's important to know

- ✓ **Email Address** - there will be a lot of emails and invitations going out. If you need to change your email address to your work email, so your calendar invites go in, please email Kirsten a.s.a.p.
- ✓ **COVID-19** - with the ever-changing Covid landscape, the API has a COVID-19 policy which you will need to be familiar with and abide by. This is particularly relevant during your stay in Adelaide. Should State borders close or become severely restrictive the date of the Summer School and Early Career Workshop will be reviewed and possibly changed.
- ✓ **Child Safety Policy** – all participants who act as API ambassadors in schools will need to show proof of their 'Working with Children" or your State's equivalent certificate and other obligations
- ✓ **Accommodation** – Accommodation and food are provided for Summer School + Early Career retreat. Twin Share accommodation will be provided to participants for the Early Career Workshop in Adelaide. If you have someone you wish to share with, please let Kirsten know. *Please be aware that for both Early Career and Professional stream participants, your time in Adelaide is residential for all, even if you live in Adelaide.*
- ✓ **Profile** – we will be creating profiles on a selection of our "Professional" participants – these may be videos or brochures. If you do NOT wish to be involved, please let Kirsten know.
- ✓ **Social Media** - API will announce the program commencement on socials tomorrow
- ✓ **Invoices** – will be sent in the coming weeks. If you need to add a purchase order to the invoice, please send the details through to Kirsten as soon as possible.
- ✓ **Questions** – if you have any queries or concerns throughout the program, please let Kirsten know as soon as possible. The program is still evolving so we may have some minor teething problems, so if you see an issue or have a problem, please bring it to our attention sooner than later so we can find a suitable solution (if applicable).

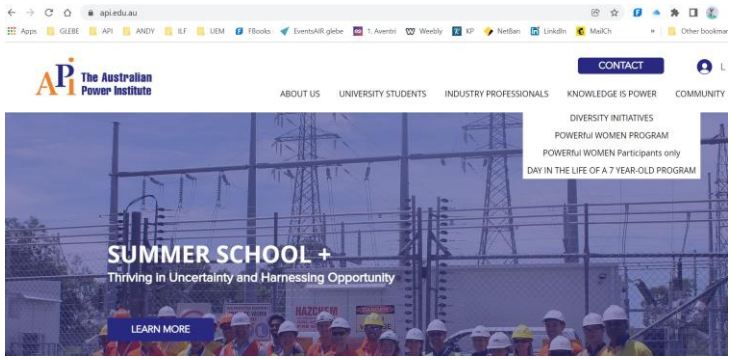
What you need to do now – Step 1

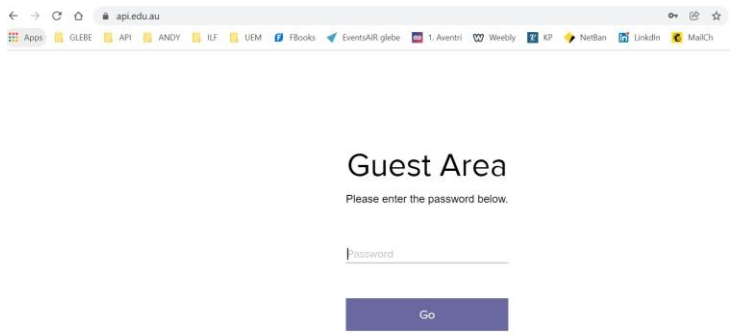
Visit the API website:

There is a POWERful WOMEN **participants only page** under the "Knowledge is Power" tab.

Use the Password **PWLP2022** to access the page.

NB: THE WEBSITE IS EVOLVING.. Please visit it regularly for updated information.





The Australian Power Institute

What you need to do now – Step 1

On the webpage you will have access to the following links.

You need to 'complete' the first 4 activities before **3 February 2022** –

1. Upload any dietary or mobility needs you may have for the Adelaide workshop
2. Indicate if you would be interested in being involved in school visits to promote STEM
3. Offer your services to 'speak' at one of the Forums and on what topic
4. Complete your initial survey – help us understand your needs and expectations. The link will be included on the webpage above. You will be asked to complete another survey at the conclusion of the program.

- ❑ Access to the 8 pre-recorded insights. "Professional" participants will need to watch these prior to attending the Summer School in Adelaide in May. "Early Career" participants are encouraged to watch to get 'thoughts' from Industry Executives.
- ❑ Calendar of events/programs that you'll need to be available to attend

API
The Australian Power Institute

What you need to do now – Step 2

The Australian Power Institute

In the coming weeks, you will be sent links inviting you to join the following.
Please *accept* the invites:

- Mentorloop – here you will need to put in your details so you can be matched up with a mentor (from end February/early March)
- Miro board – an 'active' whiteboard where you will add your ideas for various activities
- MS Teams spreadsheet - you will share your details with other people on the program; additional questions will be added to the spreadsheet over time
- Calendar – invites for Monday Mingle and other online activities

Itching to get started?

Watch the Exec Insights videos on the PWLP page.

The energy transition is happening faster than anyone expected, and there are no signs it is slowing down.

What are the things we as an industry need to do to prepare the system and market for a 100% instantaneous renewable energy grid?

You can tackle this question from an technical engineering, market and regulatory framework, industry culture and capability, or data and technology perspective. Think big and bold!

CEO's + executives from the API's Governor members to contribute to new online *Executive Insights* sessions

- ✓Key strategic challenges and opportunities facing our sector and organisations
- ✓Executive mindset and solutions
- ✓online throughout 2022

And a quick plug for Students in Power online summit

Annual online forum featuring videos by undergraduate students on their experiences working with API member organisations over the summer. ***7 – 9 March 2022 1.30pm to 4.30pm.***

The 2022 event includes live discussion forums with students on enhancing summer placement experiences, and 'Industry Inspiration' sessions featuring professionals from API member organisations on career pathways.

The Summit enhances the understanding of Bursary students and other undergrad students of career opportunities at API member organisations. Selected student videos are also used to promote power engineering careers to high school students.
